BROASTER® EQUIPMENT

# Broaster® Landing and Dump Table

Landing Table

Dump Table

Standard Features

- *Safe and convenient* – these must-have tables provide sanitary working conditions and plenty of storage space for extra pans, grates, utensils, and other kitchen accessories.

- *Great mobility* – with four swivel casters these tables can be moved anywhere they are needed in your kitchen.

- *Functional and sturdy* – stainless steel work surfaces are durable and easy to clean after use.

- *Pefect for any kitchen* – dump table's high side frame prevents product spill-over and food loss when unloading fry baskets. Landing table has flat countertop surface, perfect for holding pans while you load your Broaster® Pressure Fryer, or as a table top for supporting other equipment.
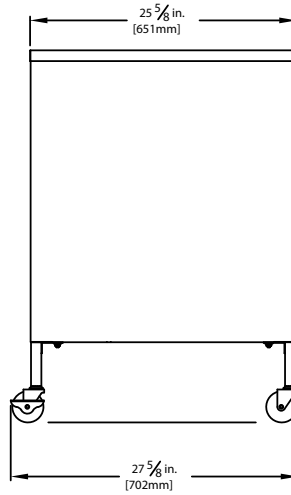

Additional Features

- Both tables feature frames made from welded #16 gauge stainless steel and sides and tops made from #20 gauge grained stainless steel.

- Both tables include 4-tray slots, designed to hold standard 12" x 20" pans (pans not included).

- Both tables have four swivel casters for easy mobility, two of which are locking.

- Dump table's dumping frame is removable for easy cleaning and made from welded #20 gauge grained/stainless steel.

- Landing table's countertop is made from #20 gauge grained stainless steel and provides portable workspace anywhere in your kitchen for accessory equipment such as the Broaster Model 620 Easy Breader/Marinator or the Broaster Potato Wedger.
