Tubular Frame		
Manufacturer's VIN Plate		

Recommended with the:

CD 120 - For Pig Roaster we recommend approximately 125 lbs. of charcoal to cook a 300 lb. pig (live weight), 250 lbs. (dressed), at a temperature of about 300 degrees.

For BBQ42 we recommend approximately 25-30 lbs. of charcoal to cook 40 lbs. of chicken for first rack. If you wish to continue to a second rack, add approximately 10-15 lbs. of charcoal. For other cuts of meats, grilling, smoking, etc. put in your desired amount of charcoal.

Meadow Creek Welding uses only food grade T-304 stainless steel in the fabrication of parts identified as "stainless steel" that will contact food under normal use. This includes, but is not limited to: Grates, racks, shelving, work surfaces and complete units constructed primarily of stainless steel and sold using that description.
